

TURFCALL CRISIS APPENDIX B

Succinct Skeleton Part iii

New Era or New Millennium

“Lead Horse Team”

Bill Adams MBE. SLA. needs a “Lead Horse Team”

made up from only those proven and qualified top horsemen and horsewomen within this industry / sport. AND to be funded from yearly licences to be charged by the BHB to all these other parties who to date cream off all the profits from other peoples work. The heart of horseracing is not being allowed to be represented properly. No way can this be either fair or just. This has now to be corrected. Turfcall calls out for your support to help to correct this imbalance before it is too late.

Direct representation from each sector who make up the workforce expertise at the heart of this industry who are directly responsible daily for this living product, and who do actually keep the show on the road. This New Team to be formed NOW and to be given the relevant seats on the Board upsides those others at 50% to ensure that this Sport can at long last be allowed to achieve its true balance and potential..

Further there needs to be formed a second team similar to a Watchdog Committee as perhaps “Lead Horse Guard” Who’s job it will be to ensure safety procedures are upheld at all levels in regard to a) the racehorses and b) the people. To enable a 50 x 50 true balance here. Personnel qualified for this team same qualifications as above only applicable.

This is the blueprint copyright of “Turfcall”
