

**URGENT MESSAGE TO MR PETER SAVILL FRIDAY MAY 18TH 2001
TURFCALL ii SUCCINCT SKELETON URGENT RED ALERT
A DYING PROFESSION.**

Shake up the BHB out of their apathy ... A united effort needed right across the board. No good blaming ... needs sorting. Solutions need to be put forward to update this seriously overdue matter.

Mr Savill you have not yet succeeded in your endeavour to secure the best possible financial future for racing have you ... and until you do so ... these remain very dangerous times.

One further has to question the fact that all these vital issues as specified in Turfcall ii to include all Appendices have been left and continue to be left for years on end ignored ... The Burnham Report of April 2000, is no better than the Benson Report in 1968 OUT OF TOUCH with the real issues at stake here.

Nothing is being addressed positively or properly here at all full stop. This is the appalling reality ... No effective action. The symptoms of this whole malaise continue to remain derelect ... WHY ..?

Nothing ... just the same old false vague promises Mr Savill that eventually something may filter down through to Stable Staff Where are you at Mr Savill ? How can you all possibly think that you can continue to get away with fob off whitewash statements such as these ... ? Whilst the sad state at the very heart of this industry continues to crumble and die daily ...

Bill Adams has been left over 16 years to tackle a massive problem with no money, and virtually single handed ... THIS CONVEY'S ALL FAST ... TO SURELY THE SIMPLEST OF MINDS.

A racing industry that is being denied a life to live and thrive and reach its true potential. There is no sign yet that the tide is turning either. All that is visible to Turfcall a Turfcall that incorporates all the people out there who do actually care is RED ALERTS ON ALL FRONTS ... GLARING EXAMPLES THAT ALL IS FAR FROM WELL AND LIKELY TO BE LEFT TO STAY THAT WAY ...

The obvious answer must surely be that punters be provided with the facility to place their bets where all the money in the kitty will go back into racing to support the very heart of racing to enable it to reach its true potential. And how ... with this new age of technology. That the further Garden Party Entertainment be incorporated to every racecourse so ensuring that the WHOLE picture for the future of horseracing in this country be welcoming and pleasant to experience for all families who want and deserve a lovely day out. This metamorphosis will never take place with DICKENSIAN and SLAVE TRADE ATTITUDES. What Kid today will be fool enough to fall for the present system of things ?

The basics have to be sound and be kept sound in any success story

You have to get this right Mr Savill to Win ... NO WAY can any other party be allowed to slice up racing's cake to just take it for themselves you now need to stop them in their tracks and put them back firmly in their place where they belong for GOOD please. GOOD LUCK YOU ARE SURE GOING TO NEED IT.
